About Me

I am Civil Engineer with over 5 years of local and international experience across multi-sector projects in Building construction, Energy, Roads and Water infrastructure. With progressive engineering experience, I have actively directed project lifecycles, starting my career in Contract Management roles, to Structural design & detailing and comprehensive project and site management roles for public and private sector projects. This has anchored my career in technical and leadership roles, helping to deliver complex projects on time and within budget.

Education Background

- **MSc. Civil Engineering, Liverpool John Moores University** | **Sep 2024–April 2027**
(Distance Learning)
- **BSc. Civil Engineering, University of Nairobi** | **2014–2021**
Among the Best Students in Materials Science & Transportation Engineering
- **Moi Forces Academy, Nairobi** | **2009–2012**
Overall Best Student in French studies

Professional Experience

ASSISTANT CIVIL & STRUCTURAL ENGINEER | **August 2024- PRESENT** | **KENYA & BOTSWANA**
PINEMARK AFRICA LTD seconded to ALTRUCS CONSULTANTS LTD

Duties & Responsibilities

- Structural design & detailing of multi-story residential & commercial infrastructure.
- Sourcing project financing and regulatory approvals for implementation.
- Risk Infrastructure Modeling & mitigation measures for critical energy and civil infrastructure
- Supervision of new & Condition assessment of old water & wastewater infrastructure.
- Day to day Project and Site operations and safety management.
- Preparing valuations of work done for IPC application.

SITE ENGINEER | **Nov 2022 – JULY 2024** | **NAIROBI, KENYA**

VISROM COMPANY LTD.

Construction of a Bottom Loading facility for Kenya Pipeline company, Nairobi Terminus (PS10)

Duties & Responsibilities

- Directed pavement construction from excavation through gravel subgrade processing, ensuring strict compaction quality control via field density testing to achieve MDD at OMC.
- Managed contractual obligations and formal correspondences under general and specific conditions of contract to mitigate disputes and protect project boundaries.
- Supervised the execution of complex structural works, underground tanks, structural walls, and integrated MEP services through to high-end interior finishes.
- Designed and executed drainage structures, seamlessly connecting new infrastructure systems to existing municipal storm networks to optimize stormwater management.
- Spearheaded the sampling and geotechnical testing of gravel borrow pits while strictly enforcing environmental mitigation protocols during borrowing and site dumping.
- Compiled accurate valuations of measured work for Interim Payment Applications and delivered final as-built drawings to successfully close out completed infrastructure.
- Maintained absolute control over day-to-day site logistics, optimizing the deployment of heavy machinery, labor forces, material requisitions, and inventory tracking.

portfolio

Key Achievements

- **Worked with the project team to complete this National Government project that was behind schedule**

Assistant Civil Engineer, Contract Management

May 2022– Nov 2022

NYORO CONSTRUCTION COMPANY LTD.

Duties & Responsibilities

- Assisted in arbitration proceedings for high-stakes disputes by preparing and managing critical evidentiary documentation for dispute tribunal hearings.
- Managed ongoing project contracts, overseeing correspondence, reviewing projected timelines against costs, and evaluating price variations.
- Formulated comprehensive contractual claims in strict accordance with FIDIC conditions of contract to protect project commercial boundaries.
- Drafted and reviewed tender documents, technical specifications, and schedules for new procurement in line with engineering codes of practice.
- Prepared detailed Bills of Quantities and engineer's estimates for roads and water projects, alongside programs of works and cash flow projections.
- Monitored and evaluated ongoing projects through site visits, measuring work progress against timelines and resolving site and contractual challenges.
- Managed plant and equipment returns, tracking fuel consumption and depreciation to maximize asset utility and optimize project profitability.

Key Projects & Achievements:

1. Rehabilitation of selected roads in Gikomba - Contract No. MONMED 21/2011-2012

Prepared complex contractual claims and interest calculations on delayed payments, while systematically monitoring all project correspondence to establish a robust evidentiary foundation for arbitration proceedings.

2. Rehabilitation of Eastleigh Second Avenue and parts of 3rd, 7th, General Waruinge and 15th Streets; Contract CE 2:2004.

Formulated comprehensive project claims and managed contractual correspondence used as core evidence in arbitration proceedings, directly assisting the Senior Engineer throughout the successful hearings and award of contractual claim.

Civil Engineer - INTERNSHIP

May 2021-May 2022

NYORO CONSTRUCTION COMPANY LTD.

Key Projects: THE NAIROBI EXPRESSWAY

Duties & Responsibilities

- Monitored the construction of the Nairobi Expressway, overseeing earthworks, drainage structures, earth-retaining systems, bridges, and the precise laying and compaction of gravel subgrades, bases, and wearing courses.
- Supervised and engineered the relocation of sewerage infrastructure along the Nairobi Expressway, including the technical design and construction of a new sewer line connection to the main trunk network.
- Directed the quality control and production of asphalt concrete and pre-coated chippings at the quarry site, accurately calculating required volumes of aggregates, bitumen, and fuel.
- Evaluated, graded, and quantified aggregate production to meet strict material specifications for both asphalt concrete and pre-cast concrete structural members.

Engineering Intern & Assistant

INSCAPE DESIGN GROUP LTD

AUG 2019 – DEC 2019

portfolio

Duties & Responsibilities

- Design & construction of low rise structures in steel & reinforced concrete.
- Site Management: Organising plant & equipment, materials, labour and inventory.
- Construction supervision of works, preparing progress reports and cash flow projections

Core Skills

Contract & Claim Administration
Project Lifecycle Management
Structural Analysis & Detailing
People centered Leadership Skills

Project Finance & Cost Control
Infrastructure Risk Modelling
OSH Compliance & Protocols

CAD Skills

CSI ETABS Tekla TEDDS ProtaStructure MS PROJECTS
PROKON AutoDESK AutoCAD PRIMAVERA P6

Professional Affiliations

1. Graduate Engineer ENGINEERS' BOARD OF KENYA (EBK)

Issued JAN 2022

Membership No. **B21848**

2. Graduate Engineer INSTITUTE OF ENGINEERS OF KENYA (IEK)

Issued APRIL 2022

Membership No. **G10963**

3. Accredited Site Supervisor NATIONAL CONSTRUCTION AUTHORITY (NCA)

Issued APRIL 2024

Accreditation No. **003/SS/24/29877**

**PMP Certification and PE Eng (EBK) registration expected by October & Dec 2026 respectively*
